**82** Sinking Outside the Box  
Versatile Vanity by Benjamin Noriega-Ortiz

This custom-designed island sink with back-to-back mirrors (it's made of lacquered wood, acrylic and marble) performs double duty for a Chicago couple. Mostly, its use is commonplace. Some nights, however, the 400-square-foot bathroom is turned into a wet bar, and the deep sinks are filled with ice to chill champagne. —EF
