

# STUDIO ITALIA DESIGN MONDRIAN SCOTTSDALE

The lobby of the Mondrian Scottsdale, Morgans Hotel Group's Arizona hotel, showcases interior designer Benjamin Noriega-Ortiz's interpretation of the Garden of Eden. The lobby features a long serpentine bench, large Baroque-inspired mirrors and a baobab tree. Lighting is provided by the Nuvola S02 suspended pendant from Studio Italia Design. Fitting for the space, the fixtures bring the outdoor nature of a garden sanctuary into the interior of the hotel. The Nuvola S02 pendant is fashioned as an large life-like fluffy cloud, constructed of soft washable fabric and illuminated from the inside. The floor lamps are designed with human forms reaching up to the light. **Tel: +1 305 6219602**
